

Miami Springs: Tree City USA

One of the most striking things about Miami Springs is the attractive and lush green canopy. Since the time of Glenn Curtiss, our trees have been an investment in the health, economy and social fabric of our city, and the Public Works Department works hard to keep them healthy and in good shape.

The City of Miami Springs has been certified as a Tree City USA by the National Arbor Day Foundation since 1993, and has earned the Tree City Growth Award for the past 16 years. The City has also been designated Tree City USA for Florida in 2004, was one of four finalists in 2005, and has also won one Sterling Award.

We are proud to have two certified arborists on staff: Public Works Director Tom Nash and Golf Superintendent Sandy Pell, and invite you to attend our Annual Arbor Day Observation and Tree Planting which takes place each Spring. If you have any concerns regarding one of our City trees, don't hesitate to call Public Works at 305.805.5170.
